RE: Construction of Water Filtration Plant Avon, MA

Dear Mr. Kelleher,

I am writing this letter to express my satisfaction with the site work performed by your company. The construction of the Water Filtration Plant was one of most important capital projects ever completed in the Town of Avon, as it will directly impact the lives of every resident in this town.

I am not the type of individual who normally writes letters of recommendation, because I expect companies or individuals to do the job for which they are hired. However in this case, the project had a very tight construction schedule, and it was critical that that all of the site work was done to the proper specifications. Your company had the professional expertise, and the necessary equipment to meet all of our expectations and requirements. The quality of the work your company performed was critical to the successful completion of the project, therefore I felt compelled to write this letter.

I wish your firm continued success on all of your projects.

Sincerely,

A handwritten signature in black ink, appearing to read "John F. Tetreault", with a long horizontal line extending to the right.

John F. Tetreault
Water Superintendent

CC: Board of Water Commissioners
