Emerald Excavating
38 Hedges Pond Rd.
Plymouth, MA 02360

Subject: Septic relocation and foundation

Attention: Ingeborg Kelleher, (President)

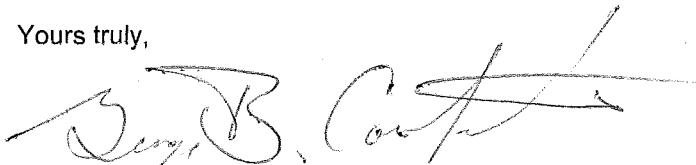

Please accept this letter as a commendation for a job well done.

Both Tom and Mark did a professional job of installing the 1500 gallon septic holding tank and the footings for our home addition. They were extremely conscious of both the elevations for the septic retrofit as well as the precise location of the pier type footings for our home expansion.

In addition, the work area was extremely tight and their expertise in the operation of the excavating equipment lent itself to a job well done.

I'd be more than glad to be used as a reference for any residential projects being contemplated by your firm.

Yours truly,

A handwritten signature in black ink, appearing to read "George B. Constantine". The signature is fluid and cursive, with a long horizontal stroke extending to the right.
