Re: Reference – Emerald Excavating Company, Inc.

Dear Shelia:

On behalf of the Pinehills Water Company, I have inspected and accepted over 30,000 feet of watermain installed by the Emerald Excavating Company, Inc. in the Pinehills community. They have done an excellent job in the watermain construction in the past few years. I believe that they are one of the better one in watermain installation. I would highly recommend Emerald Excavating Company for this type of project for the Town of Plymouth.

Please contact me if you have any further questions.

Sincerely,

HORSLEY WITTEN GROUP, INC.
