

Dear Emerald Construction,

My wife and I would like to take this opportunity to thank you for your prompt and professional service during the installation of our septic system and foundation. We especially commend the two men who did the majority of the work, Jeff and John. Their professional manner, work ethic and friendly nature made this overwhelming experience less stressful for our family. They were very reassuring and answered all of our questions. Because of these men, I would recommend Emerald Construction to my friends and colleagues.

Sincerely,

John and Beth Clark
