FAX (781) 447-1206

March 7, 2007

To whom it may concern:

The Hanson Water Department has inspected water main installation work performed by Emerald Excavating Company of Plymouth, MA. and we have found their work to be of good quality. The work inspected consisted of approximately 3,000 feet of 8" ductile iron water main installed in 2005 at the Stonebridge Commons residential development located within the Town of Hanson.

Please call me with any questions you might have at 781-447-1200.

Very truly yours,
