Plymouth, MA 02360

Mrs. Kelleher,

I would like to thank you for all of your support for my eagle project for St. Bonaventure's Parish. Because of your help we were able to successfully construct the twenty four foot by twenty four foot storage building and now the parish can keep its mowers and other equipment out of the elements.

Thank you for all your advice and general support, and for the loads of fill that you never hesitated to give. I also would like to pass on my thanks to the others in Emerald Excavating who gave of their time and effort to my project. It's encouraging and inspiring as a young person to meet people who are willing to go out of their way to give of themselves to others.

I am glad that this building is in our parish so that we both can share pride in having been a part of its creation and can see it used to help the community. I know you regularly go to St. Bonaventure's so I encourage you to take a look at what was able to be accomplished next time you go.

This project was the last requirement I needed to fulfill in order to obtain the rank of Eagle Scout. I have submitted my application and am now in the process of becoming an Eagle. I have learned a great deal in my experiences in scouting and I hope to continue this adventure throughout my life. What I have learned through scouting and in particular through this project I know will help me to make a difference in our community and our world.

Once again, thank you for all of your support.

Sincerely,

Matthew Williams
